Khalid Hussain

Principal CDS | ICON Plc

Khalid is an experienced clinical research professional with a demonstrated history of working in pharmaceuticals industry for than 10 years.

Started his journey from Project Administration, moved to Risk Based Monitoring (RBM) and finally to Clinical Data Science. Presently, working as Principal Clinical Data Scientist Lead at ICON plc, Bangalore.

He has vast experience in different therapeutic areas like Oncology, Cardiovascular, Neurology and Respiratory diseases from early phase to study close out.

Hobbies include reading books, doing puzzles and cooking. I was recently blessed with a beautiful daughter. What inspires me the most is desire to find out how far I can go, how good I can become in my field.
