

SCDM **Live**

Single Day Event South Africa

August 21, 2026.
Bloemfontein, South Africa

SPONSORSHIP OPPORTUNITIES

ABOUT SCDM

Working together to create a healthier world.

The Society for Clinical Data Management (SCDM) is an influential community that promotes industry best practices, education, and innovation.

SCDM was founded in 1994 as a non-profit organization. With over 3,000 members from around the globe, we work together to advance Clinical Data Management. Through education, certification, and our influence, we play a crucial role in the advancement of clinical research and the development of safe and effective medical treatments for a healthier world.

Our annual and regional conferences have become highlights throughout the year, bringing together experts to showcase innovative ideas and technologies and foster a strong sense of community.

Discover SCDM

**Proudly advancing
Clinical Data Science**

#SDE SA

With this third edition, the SCDM South Africa Single Day Event reflects our long-term commitment to the region and to the sustained growth of the Clinical Data Management community. Building on the strong momentum of previous editions, we are pleased to return to Bloemfontein on 21 August 2026, continuing to invest in meaningful, local engagement that supports knowledge-sharing, professional development, and regional collaboration.

This year's theme, **"Trusted Intelligence in CDM: Responsible AI and the Revolution of Operational Delivery from Design to Submission,"** underscores our forward-looking vision, focusing on trust, innovation, and practical impact as the discipline continues to evolve.

Reasons to attend:

Thought Leadership

Demonstrate your thought leadership in Clinical Data Management.
